Profile

Self-starter and creative, proven time and time again by running 200+ person creative meetups, launching my own social network to 6,000+ developers on the waitlist, opening my own physical photo studio at the age of 17, and reverse-engineering a company's app to get the opportunity to work there.

Employment History

Jan 2019 – Present

OKLAHOMA CITY, OK

Web Developer

BriteBee

Develop BriteBee landing page/marketplace app in addition to designing and building websites for clients in the insurance industry. I work closely with a team of content writers, designers, and marketing specialists to deliver the best possible product.

Sep 2016 – Dec 2018

LINCOLN, NE

Creative Director

Pixel Bakery

At Pixel Bakery I assist in creative direction, photography, videography, and web development with a team of 4-5 people. I've worked on everything from published book covers to recording live performances in caves.

Sep 2016 – Present

LINCOLN, NE

Freelance Web Developer

I work with a wide gamut of clients, from non-profits to startups looking to boost their online presence. I am driven to create the most value for the client by creating a solid, timeless website that works on any device.

Mar 2015 – Sep 2016

SAN FRANCISCO, CA

Web Developer

Chalk

Tasked with the development, design, and maintenance of the web app that was primarily used by influencers during their AMA sessions. If anything went wrong the website it was my job to resolve the issue.

Skills

Frontend Web Development

Backend Web Development
